

Our Quality for the month

June 2015

~ Intuition ~

Concentration makes us perceptive.

Meditation makes us receptive.

Contemplation makes us intuitive.

Intuition knows much
about God.

~

A truly advanced seeker's
unerring pilot is intuition.

~

Intuition is the
introduction of God-
intoxication.

~

We lose the power of
intuition The moment we
feed The reasoning mind.

~

May my body, vital, mind
and heart Speedily and
breathlessly follow My
soul's intuitive flashes.

~

As soon as you
acknowledge The limits of
knowledge, You become a
student Of the soul's
intuition-university.

~

Let others call me a
fanatic. I will listen only
To my intuition-friend
Who tells me When to run
and sit At my Lord's
Compassion-Feet.

~

Intuition Is the fondest
child Of the third eye.

~

Intuition knows No
frustration.

~

Wise intuition
Unmistakably arrives
at The Goal.

~

Intuition The fastest will-
power-plane To the
Destination.

~

You do not have to imitate
Others' successes.
You do not have to learn
From others' mistakes.
Just follow your intuition.
Your intuition embodies
The beauty of success
And The purity of
progress.

~

Intuition travels alone In
supreme secrecy To prove
to the world That God the
Creator Keeps all His
Promises To God the
creation.

~

Conscience and intuition
are the inner experiences of
the soul that try to protect
and perfect our outer life.

~

Intuition selflessly feeds the
inner life and recognises,
inspires, and fulfils the
outer life.

~

Intuition is the choice of the
ascending human race and
voice of the descending
divine Grace.

~

Each spark of intuition is a
cherished experience of
God in the seeker and for
the seeker.

~

Out of His infinite Bounty,
My Lord Supreme has
made me His own cosmic
intuition-soul. In me is His
transcendental Height With
me is His universal Life.

~

What is intuition? The
illuminating vision of the
seer. What is realisation?
The perfection-sun of the
Yogi.

~ Intuition ~

Question: Is there a connection between the third eye and intuition?

Sri Chinmoy: Yes, there is a connection, but the third eye is infinitely superior to intuition. The third eye is like the sun and intuition is like a few flames. With intuition we can get an immediate answer to a question. With the third eye one can look forward and backward, one can see past, present and future. All is at its disposal. The third eye has the power to transform the past through its adamant will power. Intuition does not have this power, but the two are good friends.

Question: Is it a good idea to use our intuition in our daily tasks?

Sri Chinmoy: As soon as we start using our intuition, we have to know that we are doing the right thing. But just because we are doing the right thing today, we can't say that immediately we are going to get the result. We have to continue doing the right thing for two days, ten days, two months, three months. It is like a seed. The seed does not germinate all at once. It takes some time for the seed to germinate. Then it grows into a tiny plant and a sapling, and finally it becomes a huge banyan tree. Today's intuition-power is also something that grows. Today's intuition-power need not and cannot be all-pervasive; like a muscle it can be developed. It can become stronger and more fulfilling.

He who has intuitive power should feel that this power has dawned on him in order that he can serve those who have less intuitive power, who have less capacity, who have less wisdom-power. If he serves his brothers and sisters on earth, then he is bringing about lasting peace, lasting happiness on earth. (...)

Intuition shows us how to start, how to continue and how to end. The word end is not the right expression to use when we speak about the search for eternal happiness. There is no end. We are always transcending our previous goals. Today's goal is tomorrow's starting point for an ever-higher goal.

Exercise to increase Intuition-Power

Question: How can I have more intuition?

Sri Chinmoy: You can have more intuition only by developing more aspiration. By increasing aspiration, you can get intuition. Aspiration is absolutely needed to develop intuition.

“Develop a voracious Aspiration-appetite!

You will meet God halfway to Heaven.”
